## CPS Easy Stop-160

**The CPS Easy Stop-160 is a, patented, sheet stop for the stacker of a flatbed diecutter Bobst SPO 160 A-Matic.**

**It prevents the „jump“ of the sheets behind the machine guides and makes it possible to use the rear sheet support of the machine.**

**It is introduced into the machine from outside and can be moved without problems with the motorised side strokes of the machine.**

**The part can be obtained by CPS under part No. 13**
