CPS Easy Stop-203

The CPS Easy Stop-203 is a, patented, sheet stop for the stacker of a flatbed diecutter Bobst SPO 203 A-Matic.

It prevents the „jump“ of the sheets behind the machine guides and makes it possible to use the rear sheet support of the machine.

It is introduced into the machine from outside and can be moved without problems with the motorised side strokes of the machine.

The part can be obtained by CPS under part No. 14
