Speed Lift

The new **Speed Lift** developed and patented from CPS, is a sheet lift, that can be retrofitted in seconds on the exact needed place. **Afterwards** done on the machine in every female stripping tool.

The by CPS supplied, **patented, Speed Lift Precision Drill with depth stop** makes it possible. It drills the exact dimension. 2000 rpm, for wood only.

The parts can be obtained at CPS under part No. 05 (Speed Lifter)

No. 06 (Speed Lift Precision Drill)

No. 07 (depth stop)
